OFFICE NOTE.

SUBJECT.

Improving the Sanitary Condition of Municipality near the Imperial Service Lines at Bangalore

LAST REFERENCE
Serial no 3 in section 2 of 116-95.

Letter No. 320 dated 16th April 02
from the President of the Municipal Commission, Bangalore City

The President submits the plan and estimate for improving the Sanitary Condition of Municipality the work amounting to Rs 7955/- and solicits sanction to debit the cost to Provincial Funds ~~on the footing that the City is to bear the Imperial Service Lines.~~

2. The Senior Surgeon to whom the papers had been sent for ~~opinion~~ an expression of opinion enquired the President whether Mer.

Requests with an expression of his opinion in the matter.

4

had been submitted (Sic) to the Health Officer for his opinion

3 The President now submits his plan and estimate and states that the work has to be begun at once and completed before July next, and that as the matter was one of urgency and time would be lost by the papers being sent to one officer after another in succession" he has taken the liberty of sending them for sanction of Government"

4. The financial condition of the Bangalore City Municipality is as follows:-

Opening balance.	3847
Receipts	2,05,964
	2,09,811
Expenditure =	2,05,048
Closing balance =	4763

which is less than the prescribed

Exp' Rs 15,237/-

5. Besides fixed charges (2,05,048) the Board have to provide for payment of interest and instalments due to Government on account of loans and for the maintenance charges of the city water works. If these two items of charges are provided for, there will be a deficit of Rs 52,367 as shown hereunder:-

(1) Excess amount required for payment of loans = 1000 as per item 2 of Pro no 9938-42-B 21st Dec 1901.

(2) Amount to be set apart for maintenance of water works = 56,130

Total = 57,130

Deduct —

credit balance at the end of 1902 = 4763

deficit = 52,367

Submitted for orders

The Secretaries

Requests with an expression of his opinion in the matter.

ferance by the Municipal
Engineer is for Rs 7,955/
of which Rs 4,086/ is for drains
& the rest for opening and
improving Roads & Conservancy
Lanes. The necessity for the
work is explained to be
due to the Village being
surrounded by 3 important
Institutions, viz, The Palace,
the Imperial Service Lines
& the New Transport Lines.
The Senior Surgeon Whose
opinion was solicited
by the President in con-
nection with this Sanitary
Improvement, instead
of saying what he had to
say in the matter in consultation
with the Sanitary Engineer
with whom he seems to
have inspected the Village
recalls the President to
point the matter to

the Health Officer for his opinion. It is respectfully submitted that it is not for the Senior Surgeon to ~~[illegible]~~ ask the President whether he had submitted the question to his Board for opinion. If he disagreed with any items proposed in the Estimate he ought to have simply pointed out the same to the President. As the procedure adopted by the Senior Surgeon is contrary to the recognized principles of Official Etiquette, the same may be pointed out to him and the opinion of the Chief Engineer called for in the matter.

The 3rd Councillor. 18/4/1902 1894

21/4/02 (599)

Call for the Ch Sup's opinion early.

7 The Ch of Engineers has nothing to do with the construction, maintenance, improvements, or the effects in the village of Winnetka. It is a village matter the Bungalow City & Municipal limits, for its sole convenience & needs will have to be passed & the Municipality have approved that in its present financial condition it is too much to expect of it to pay $3,000 or add for the purpose. Such a grant may be made if the Secretary considers

entered

18 I inspected this village by myself on the morning of the 27th. Instant and again in Mr. Palpu's company on the morning of the 28th. The improvements proposed are as costly as they are useless except perhaps the construction of two public latrines. The roads and lanes are narrow and crooked and there is no use merely extending them in the manner proposed. Conservancy lanes without stone drains cannot be of much use. A portion of the village has not been dealt with at all in the project. I would either leave the village alone or remove it altogether or at any rate buy up and demolish mud roofed and thatched houses therein and then decide what further action should be taken in the direction of laying out roads and lanes and providing them with suitable drains. In any case, the Board is unable to meet the cost involved. The wishes of the Military Dept. may be ascertained as it is to that Dept. that the cost will have to be debited. But for the proximity of the village to the Imperial Service Cavalry lines and Transport lines, this question would not have been taken

up at all there is, as far as I can
see, nothing positively to
require immediate attention this
summer is at least as good as any
the Mahallas in the City Power.

2d The above order was duly
Communicated to the President

No. 4

A in G.P. No 9748-9 / 7405-02 of the 10th Dec 1902

In reply* the President submits plan and estimate amounting to Rs 9980/- for the construction of two latrines in the village and reports that as the village is evacuated on account of plague, the measurements of houses to be acquired and settlement of compensation thereof cannot be undertaken in the absence of the owners and that the same will be done as soon as the village is re-occupied.

*No 209 S 26th March 03. Despatches 14th April 1903. Plan B

2. In regard to the funds from which the cost of the several works of improvement to be done in the village, the President says that in the opinion of the Sanitary Commissioner and the Health Officer the village is in a sufficiently sanitary condition and require no further improvement for its own sake and that the works of improve-

now directed to be carried out at the instance of the Military Deptt would if executed entail loss of tax to the Municipality. In these circumstances he considers that it is but fair that the money should come either from the Military Budget or from the State funds. (Letter No. 2069)

Invites fur orders.

The estimate for the Construction of two latrines have to be sanctioned ~~and orders passed in regard to the adjustment of cost of works~~ ~~to be~~ ~~made in due course.~~

DJ 7/4/03 As however, the 2nd Councillor considers that all the improvements originally suggested at a cost of Rs 7955/- are not required, the President may be asked to submit an Estimate for the work actually required, in acquiring & demolishing mud roofed houses.

and the Military Department may then be asked to state whether they would bear the cost thereof - The cost of constructing Latrines is a legitimate charge on the Municipality and they are bound to carry out the work from their funds. Inded forwarded with draft asstly.

Regulation supplies the defect in the existing Regulation

There are no precedents even, as J 25/8/03 but there is nothing to prevent Government from ordering certain work being carried out from Municipal funds in the interests of the rate payers, so long as such work is considered necessary for the safety of the place and its surroundings. JJ 26/8/03

(Existing laws)

S. 153, provides that the Commrs shall provide Common latrines &c. The old Regns do not make any provision for enforcing the performance of all their obligations by the Mpl likes. 178 of the draft Regns. The question is not free from doubt whether such a power cannot be exercised (when not expressly granted)

by the Central Govt
the Board? Will the Govt
(Inst-Bar) Kindly let me have
this opinion & also the
any authority that
found on the question?

Placed before me by the
Inst Bar on 4-9-

Where the Municipality is recalcitrant, as in this case, I think Govt would be justified in taking action under section 92 of the Mal Regn (as revised by Regn VII of 1899). The conditions necessary for taking such action are: 1st. that the work should be of a permanent nature and necessary (in the opinion of Govt) for the health, safety, & convenience of the inhabitants; 2nd that the Commrs are unable [unwillingness added to a plea of want of funds is tantamount to inability] to undertake the work from Mal funds; and 3rd that borrowing by the Mal Comrs is undesirable. All these conditions seem to be fulfilled in the case of the two latrines.

Govt. may have them conducted at its own expense in the first instance, and recover the cost from the Municipal fund under S. 93 (1), handing over the Cabmen when conducted to the Rd Cmrs for [illegible]

heirs &.

There are no other provisions in the existing Rd Regns which are directly to the point.

I think this view is correct on the whole. The draft is [illegible] for

[illegible]

6/7/13

If the Secretary thinks that this is a proper order to pass, I do not wish to [illegible] question. I may however add that I am still of opinion that it is not fair to compel the Bd to carry out in any part of the City a work which is necessary in other interests and not "for the health safety or convenience of its inhabitants" more especially when that part is a Village recently included within municipal limits. I doubt whether the part of the City are similarly rounded with a sufficient no of

salaries. The Board can only ~~gradually~~ carry out such measures as the finances permit. And I cannot think the desirability of our resorting in this case to the extraordinary power vested in us by Section 92 & 93 - I cannot think the Board are precluded in this case. No question of discipline seems therefore in my opinion involved. May I beg the Dewan to reconsider his opinion?

C Seshadri
9-9-03

To the Dewan.

12852/9.9.03

Submitted to His Highness.

Much useless discussion is contained in the Office note relating to certain improvements proposed to be made to Munireddipalya, a suburb of Bangalore, included within the City Municipal limits. The President of the
G Municipality proposed in April 1902 some sanitary improvements to this village at a cost of Rs 7,955. The Municipal funds were too low to bear this extra charge, and on inspection by Councillor Mr. Srinivasiengar and by the Sanitary Commissioner, it was found that the sanitary condition of the village was fairly satisfactory and costly improvements were unnecessary. Ultimately, the President sub
B mitted in March 1903 estimates for constructing two latrin at a cost of Rs 998. It was assumed, however, that the improvements proposed were needed more for the purposes of the Military Department, the Imperial Service and Transpor Lines being close by, than for the sake of the village itself, and that, therefore, the cost should be borne by tha Department. As the result of further inquiry ordered by me it was found that of 114 houses contained in the village, 62 had daily conservancy latrines, 7 had cess-pits and that the remaining 45 houses had no latrines, the inmates of these houses resorting to the adjoining fields for purposes of nature.

The Municipality, however, is unwilling to bear the cost, as the improvements are believed to be solely fo the use of the Military. The 1st Councillor thinks that, but for pressure from the Military Department, there is no urgency to undertake the work, and that the same may be done when funds are available. I am, however, unable to

agree with Mr Srinivasachgar in this respect, and it is clear to me that to those villagers who have no latrines in their own houses, public latrines would be a great convenience, and that thereby, the surroundings of the village would improve in cleanliness. The contiguity of the Imperial Service and Transport Lines, where a large number of people live, and the situation of the Palace at a short distance, render it desirable that the surroundings should not be neglected so as to foster infection. The cost is a legitimate charge on Municipal funds and the work should also be promptly carried out. ~~As~~ By the Municipality cannot immediately ~~undertake it~~ undertake it, the work may, under the peculiar circumstances of the case, be ordered to be executed under Section 92 of the Municipal Regulation which gives power to Government for the purpose.

From

THE PRESIDENT,
Municipal Commission,
BANGALORE CITY.

To

THE SECRETARY TO THE GOVERNMENT OF MYSORE,
General and Revenue Departments,
BANGALORE.

Sir,

I have the honor to submit for the orders of Government Plan and estimate amounting to Rs 7955/- for improving the Sanitary Condition of Munireddipalya near the Imperial Service Lines.

2. The necessity for making the proposed improvements has been accentuated by the fact that the village is surrounded by three public Institutions of very great importance viz I The Palace II The Imperial Service Lines and

III The Transport Lines. The amount wanted is large and the City Municipal Board is not in a position to allot it. The work has to be begun at once and completed before July next. I therefore request that the estimate may, as a special case, be sanctioned from Provincial Funds.

3 I had sent the estimate and plan to the Senior Surgeon who, it is understood, inspected the spot with the Superintending Engineer for Sanitary Works. The Senior Surgeon however prefers the papers to be sent to the Health Officer. I beg to submit a copy of the Senior Surgeon's letter and to state that as the matter is one of urgency and time would be

lee

would be lost by the paper being
sent to one Officer after another
in succession, I have taken
the liberty of sending the estimate
and plan for sanction of Govern-
ment and I request the favor
of early orders being passed
about the matter

I have the honor to be

Correspondence ending with letter no. G. 139 dated the 2d Octobers 1902 from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore in regard to improving the sanitation of Sunnieddy Palya at Bangalore

---

Order thereon

On a full considera tion of the ~~Report of the~~ circumstances brought to notice, ~~forwarded herein by the City Health officer~~ Government, care of opinion ~~considers~~ that ~~for the cost~~ the improvements suggested for the village of Sunnieddy Palya are rather costly and that there is nothing in the village positively bad and requiring immediate attention. ~~But~~ As, however, the Palya is in close proximity with Palace

Military lines, they direct that action be taken to provide it with the additional two latrines required and to acquire and demolish the ~~boundary~~ mud-roofed & thatched houses in it. Arrangements must also be made ~~to~~ at once to prevent the collection of manure in the locality.

An estimate of the cost of the works above referred to should at once be submitted pointing out the source from which the same could be met.

Encls: 3

City Bangalore, March, 26th 1903
April 18th

From

The President, Municipal Commission,
Bangalore City.

To The Secretary to the
Government of Mysore in the
General & Revenue Department
Bangalore

Sir,

With reference to Government Proceedings No. 9748-97 / L.7.45-1902 dated 10th December

calling for an estimate of the cost of certain works of improvement in the village of Palyam and the marginally noted premises I have the honor to submit herewith plan and estimate amounting to Rs 998/- for the construction of two Cabines in the said village. As the village has been vaca

No 80: 13575 dated 10th March 1903
L.7.45-1896

on account of plague measurements of houses to be acquired and settlement of compensation therefor cannot be undertaken in the absence of the owners. It will be done as soon as the village is reoccupied and an estimate for the cost of acquiring lands and buildings will be submitted in due course.

As for the source from which the cost of these works has to be met, I beg state that the village, as it is, has been declared both by the Senior Surgeon and Sanitary Commissioner and the Health Officer of the Municipality to be in a most insanitary condition and no

further improvements were necessary for its own sake. The proposed improvements have been directed to be carried out at the instance of the Military Department and the demolition of a large number of houses in the village on account of the better sanitation of the neighbourhood would entail loss of tax to the Municipality. It therefore seems but fair, in my opinion, that the cost of the above-mentioned Works. should be met either by the Military Department or from Provincial Revenue.

I have the honor to be

Sir,

Your most Obedient Servant,

[illegible]

President

No. 242

From

THE PRESIDENT,
Municipal Commission,
Bangalore City.

To

The Secretary to the Government
of His Highness the Maharaja of Mysore,
General & Revenue Departments,
Bangalore.

Sir,

With reference to your docket (L.S.No.11) No 15850/L7 45-1902 dated the 9th Instant enquiring why the Municipality should not bear the cost of constructing the two proposed latrines in the village of Munireddipalya as they seem to be purely a Municipal Work, I have the honour to state that the People of the said village have not applied for any

New

new latrines - nor for any ~~any~~ improvement.
The Health-Officer of the Municipality
and the Senior Surgeon who inspected
the place reported that the village
was in a sufficiently sanitary condition
and no further improvements were necessary
or its own sake. It was the Military
Department that wanted the village
to be improved by acquiring and
demolishing several of the existing houses
and by providing latrines, roads &c
The cost of those improvements including
the latrines has therefore to be borne by
that Department.

I have the honor to be
